

Create your own staircase.

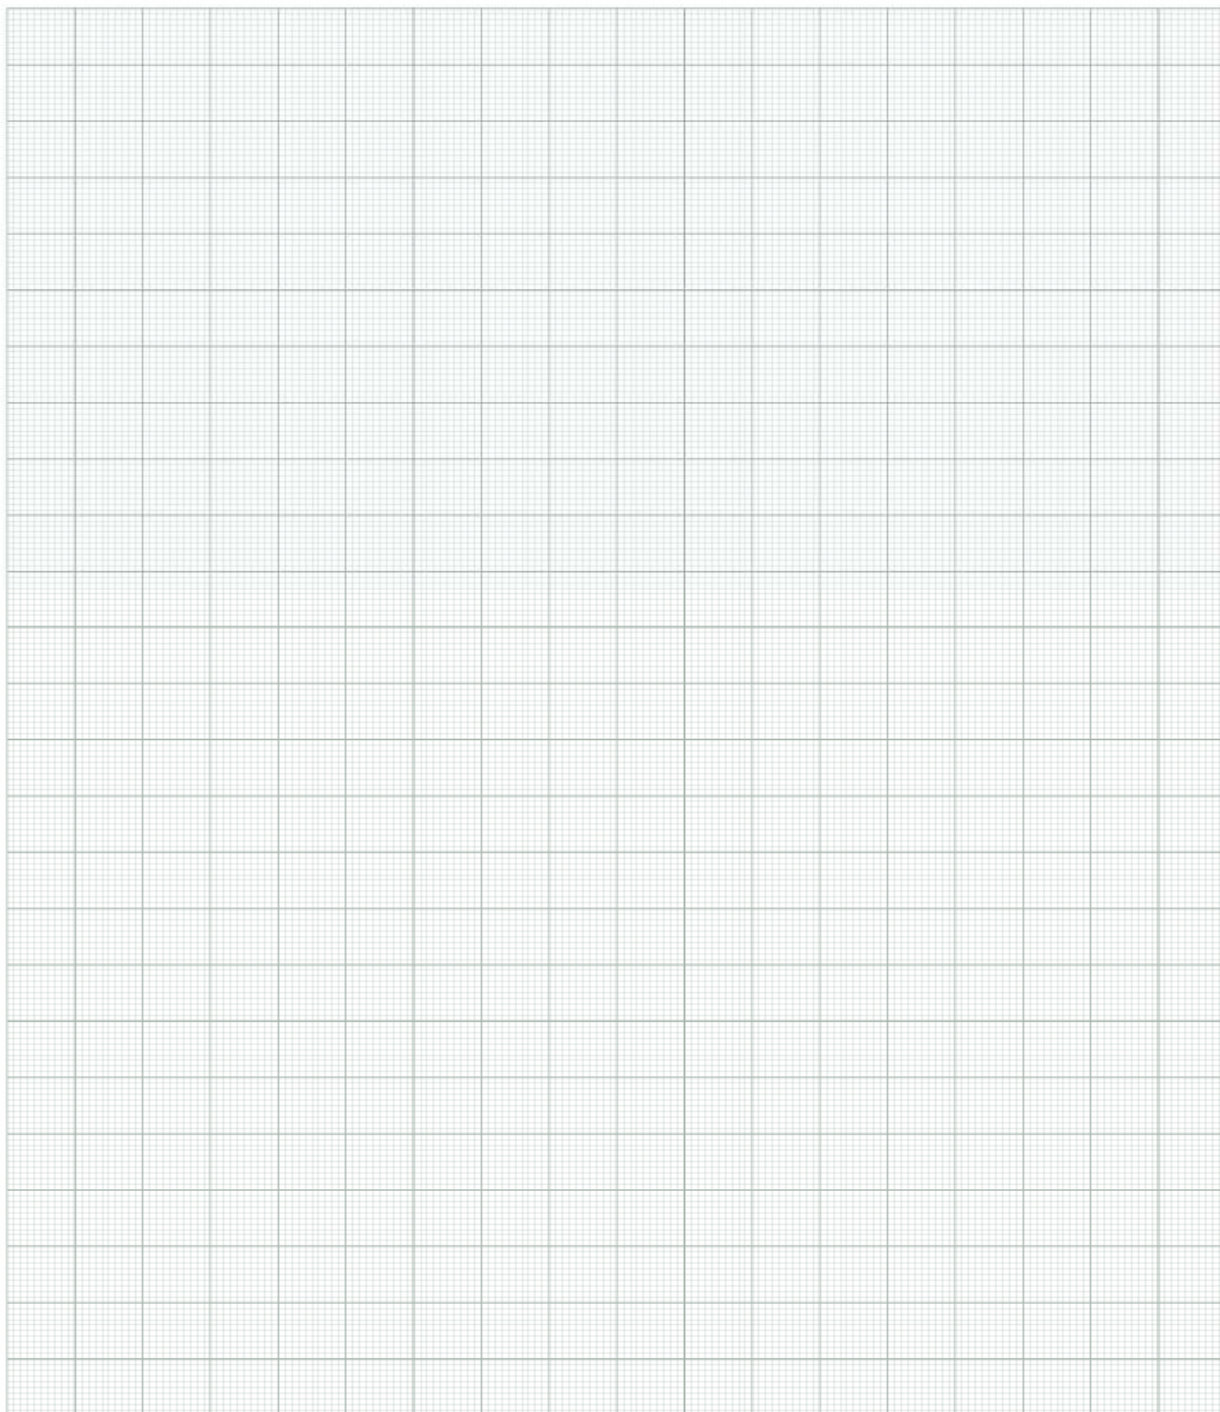

Got an idea for how you want your new stairs to look?

Print Out our graphpaper and unleash your creativity.

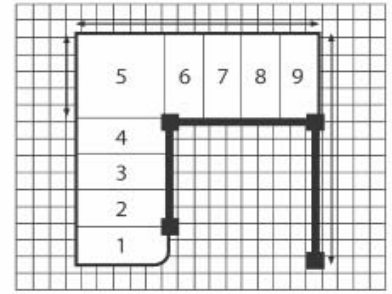

Planning

Create your own staircase

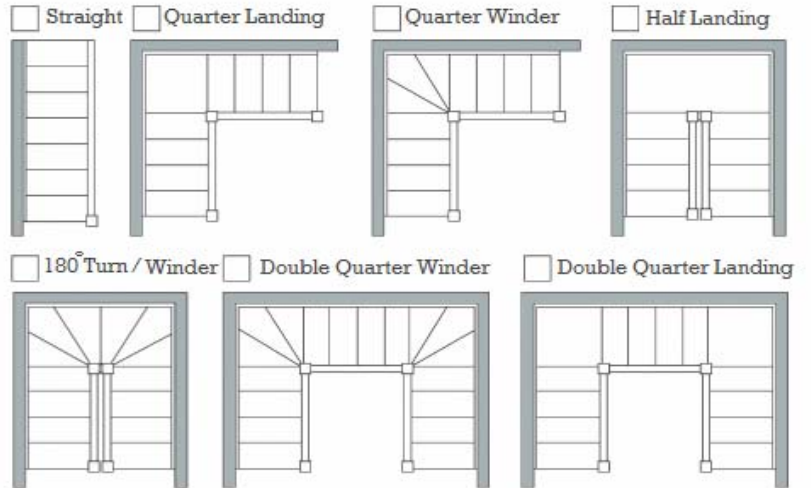

STEP 1

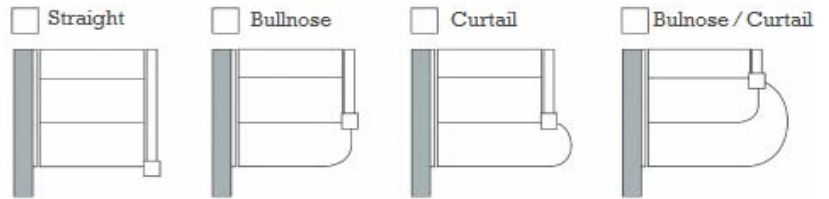

- Please mark clearly on your drawing where you would like the newels, raking, and landing balustrading
- Use planning grid to draw out your staircase as illustrated below.
- Please show stair well overall dimensions

STEP 2

STEP 3

Measurements

A Finished Floor to finished floor measurement:

B Total going measurement:

C Well length & width measurement:

D joist, floor and ceiling total dept measurement:

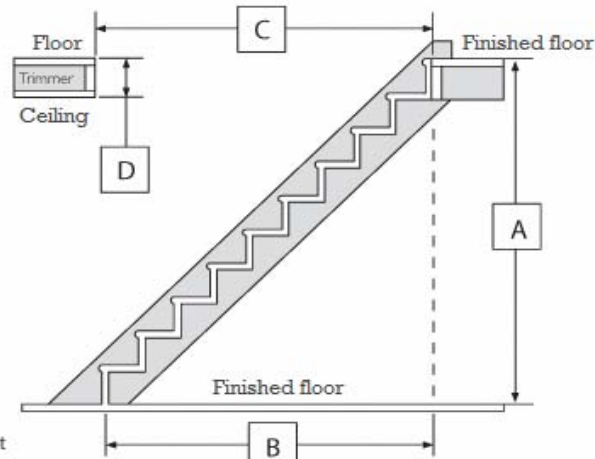

E Overall stair width measurement:

Please indicate any apertures (doors, windows etc) that encroach on the staircase as these can be subject to building regulations.

Is the staircase for;

- Private use
- Institutional use
- Other use

Are landing return handrails required? Please indicate clearly on drawing
